

CERTIFICATE

The Siemens SIVACON S8 Technology Partner

EGESIM GmbH

is authorised to use the active arc-fault protection system DEHNshort in the SIVACON S8 low-voltage switchgear assembly.

DEHNshort is fully integrated according to the requirements of IEC TS 63107.

The Technology Partner has specifically trained employees who have successfully completed a training course with the following content:

- Project Engineering
- Installation
- Functional Test

Neumarkt, 16/17 July 2024
